Volume 20 Contents

January

Editorial 1
Lectins and Their Uses as Biotechnological Tools. P F Zatta and R D Cummings 2
15th International Congress of Biochemistry, 4–8 August, 1991, Jerusalem, Israel, Symposium on Education
Integration of Examinations and Education. A H Mehler 10
Using Computers to Integrate, Consolidate and Improve Biochemical Education. B T Sewell and G R Delpierre 14
Biochemistry Textbooks for Effective Learning. F Vella 17
Videotapes in Biochemistry Teaching. E J Wood 19
Chemical Rationale for the Citric Acid Cycle. P D J Weitzman 21
Introduction to Biochemistry: A Different Approach. H B White, III 22
Biochemistry in Khartoum. A A Dafallah 23
A Report on Biochemical Research in Turkey. C Çelik 24
Mechanisms Leading to Complications in Diabetes Mellitus: Pathological Role of α-oxoaldehydes. M P Kalapos 27
Brighter Bioenergetics—a Poster. B S Brown 30
CAL in the Biochemical Laboratory. J M Carrington and M P Thompson 32
An Elementary Geometric Property Derived from the Michaelis–Menten Equation. Relation of the Property to the Velocity Curve and Plots for Determining the Kinetic Parameters. S Kogawa and K Horiike 35
Unsuspected Ligand Aggregation: A Key Problem in Biochemical and Biological Assays with Natural and Xenobiotic Amphipaths. K P M Heirwegh 36
Noticeboard 40
Experimental Section
The Influence of pH on Electrophoretic Mobility, A Laboratory Investigation. S Friscia, S L Turchi and C E Hepfer 41
Spectrophotometric Determination of Enzyme Activity: Alcohol Dehydrogenase (ADH). J R L Walker 42
The Chloroplast ATP-Synthase—A Light Regulated Enzyme. P J Andralojc and D A Harris 44
Study of Control Coefficient Profiles in Metabolic Systems by Computer Simulations: Influence of the Pathway Substrate and Negative Feedback on the Control of the System. N V T Darias 48
A Classroom Model of the α-Helix. D Josephy 51
Laboratory Experiments on the Actions of Digestive Enzymes. C H K Cheng 52
Studies on Brain Monoamine Oxidase: A Laboratory Investigation in Neurochemistry for First-year Undergraduates. G P Reynolds and L M Reynolds 55
Audiocassette Review 57
Book Reviews 57
Lexicon 64
Monitor 65

April

Editorial 67
The Importance of Thylakoid Stacking for Cyclic and Non-cyclic Electron Fluxes in Some C_4 Plants. J M Diez-Andres 68
Biochemical Education in Czechoslovakia. Report on a Workshop held at the Postgraduate Medical and Pharmaceutical Institute, Prague, 29–31 May, 1991 71
Teaching Technical (Applied) Biochemistry. J Káš 75
Modern Biochemical Science and Biochemical Education. Report on an IUBMB Workshop held in İzmir, Türkiye, 11–14 August, 1991 78
BioQUEST Workshop. J Maber 83
A Strategy for Introducing Students to the Primary Literature. C E Deutch 85
The Polymerase Chain Reaction—Already an Established Technique in Biochemistry. G E Blair and M E Blair Zajdel 87
Haemoglobin and Cooperativity. P D Josephy 91

Once More Round the Citric Acid Cycle. B S Brown 93
SIGRAF: A Versatile Computer Program for Fitting Enzyme Kinetic Data. F A Leone, L Degreve and J A Baranauskas 94
Dynamic Metabolic Diagrams in Biochemistry. A J S Siqueira, J O R Remião and A M Azevedo 97
Simplified Unifying Basis for Teaching the Applications of the Laws of Thermodynamics to Biological Systems. K M Abu-Salah 99
Biotechnology Programme at Banaras Hindu University, India. A M Kayastha and B D Singh 103
Conversion of Oxidative Energy to Reductive Power: II Contribution of Hydration to the Reductive Energy in the β-Oxidation of Fatty Acids. G Banfalvi 105
IUBMB Committee on Education 107
Letters to the Editor. H B F Dixon and P N Campbell 108
Experimental Section
Minireview: Isoelectric Focusing. M Prats 109
Amino Acid Titrations Using a Spreadsheet Program. R W Brosemer 111
Determination of Accessible Bed Volume of Gels by Short Column Filtration. O P Malhotra, P Prabhakar and A M Kayastha 114
A Look into Enzyme Kinetics: Some Introductory Experiments. S Tayyab and S Qamar 116
Microcomputer Software Reviews 118
Noticeboard 119
Book Reviews 120
Lexicon 127
Monitor 128

July

Editorial 129
Nitric Oxide and Blood Vessels: Physiological Role and Clinical Implications. A Calver, J Collier and P Vallance 130
American Society for Biochemistry and Molecular Biology 83rd Annual Meeting, Houston, Texas, 12th February, 1992, Education Symposium
Some Reflections on the State of Biochemistry Teaching. E J Wood 136
Getting the Students Involved: Overhead Projector—The Icebreaker. M Saffran 137
A Computer-Simulated "Wet" Laboratory. B Rotman and A Butte 139
Evaluation of Student Performance for Constructive Purposes. A H Mehler 141
Emergence of Graduate Medical Schools in Australia. B C Shanley 143
An Undergraduate Biochemistry Degree Recommended by the American Society for Biochemistry and Molecular Biology 144
It's Time We Replaced 'High-Energy Phosphate Group' With 'Phosphoryl Group'. E A Carusi 145
Comparison of Collaborative Self, Peer and Tutor Assessment in a Biochemistry Practical. L A J Stefani 148
Biochemistry at Mercer. B Kadis and M Horst 152
Isaac Asimov, An Appreciation. B S Brown 154
An Alternative Substrate is Not the Same as a Dead End Inhibitor. I H Segel and L D Segel 155
Biochemistry and Molecular Biology. P N Campbell 158
Biochemical Education in Romania. Report on a Workshop held in Bucharest, 16–20 September 1991 166
Problems Page 170
Experimental Section
Instructions for Constructing a Small "Working" Model of an Allosteric Enzyme. R Swanson, E Marr and J R Wild 171
Noticeboard 173
Determination of Catalase Activity and its Inhibition by a Simple Manometric Method. J A Teixeira and M Mota 174
A Michaelis–Menten Enzyme: Time Correction Introduced for Computing Kinetic Parameters at Low Values of $[S]/K_m$. M Prats and F Rodriguez 176
A Simple Procedure for Purifying Polyphenol Oxidase for a Practical Biochemistry Course. A Sánchez-Ferrer and F García-Carmona 178
The Polymerase Chain Reaction: Development of a Practical Illustrating its Use. Z Smith and C D O'Connor 180

Letters to the Editor. R Bentley, R W Hanson, P D J Weitzman, C V Anand and U Anand 182
Videotape Reviews 184
Book Reviews 185
Lexicon 193

October

Editorial 195
Bacterial Glycogen and Plant Starch Biosynthesis. A A Iglesias and J Preiss 196
A Survey of the Content of Introductory Biochemistry Courses for Different Degree Programs at Thai Universities. J Svasti and R Surarit 204
"Ordering Biochemicals"—A Dry Laboratory Class. G Popescu 209
The Impact of Molecular Biology Upon Teaching and Research in Biology and Medicine in Universities. P N Campbell 211
Conversion of Oxidation Energy to Reductive Power: III Hydrolytic Energy Conservation in Amino Acid Metabolism. G Banfalvi 216
Ammonium Ion Excretion and Ureagenesis in Acid-Base Balance. D J McCorquodale 219
The Centre for Cellular and Molecular Biology at Hyderabad: A Trend-setter. C Chakrabarti and S Shivaji 222
Teaching by Posing Questions. A E Gubareva 226
A Minicourse on Science and the Law in a Biochemistry Department. A Bezkorovainy 228
Order of Reaction for Sigmoidal Curves. O P Chauhan and S Singh 230
Experimental Section
Southern Transfer and Hybridization: A Class Experiment. A S Weiss 231
Use of an Enzyme Assay in Student Classes. E B Arias, J C Cancho, J M De Luis González and M A G Serrano 234
Activation and Inhibition of Grape Polyphenol Oxidase. A Sánchez-Ferrer and F García-Carmona 235
Protein Electrophoresis Using Agarose Support Matrix. L C Davis and T Heintz 237
Letter to the Editor. P N Campbell 239
Videotape Review 239
Book Reviews 240
